**"Business can be
a global force for good."**

- Ban Ki Moon, UN Sec-General, 2015

INTRODUCTION

The world has changed and is still dramatically changing.
Old ways no longer work and transformation is crucial.

The typical selfish siloed business perspective must evolve to
one activated and driven to achieve better results for company,
community and the world.

Leadership needs to pivot from ego-centricity to eco-system
awareness and development.

The question is **"HOW?"**

ABOUT THE BETTER BUSINESS SCHOOL

THE BETTER BUSINESS SCHOOL (TBBS) was designed by EO & YPO entrepreneurs in partnership with Lynch Pin, who are passionate about ethical capitalism with positive social impact. Having run the gamut of entrepreneurship in an increasingly uncertain and complex world, they are now driven to inspire and mentor businesses as a force for good.

THE BETTER BUSINESS SCHOOL comprises a week-long executive transformational program that will be held annually over the 3-year TBBS programme designed for ambitious, open-minded entrepreneurs who want to consciously

- incorporate sustainability and impact in business
- learn scaling-up techniques to improve performance in all areas
- be challenged by thought provoking cutting-edge speakers
- share experiences, support and learn from each other through forums and coaching circles
- build better selves, better lives and ultimately, a better world.

*Community & Coaching
Circles*

Providing business insights through a multicultural lens relevant to Asia with a sense of community through Coaching Circles.

*Curated Content,
Learning Platform*

Selecting cutting-edge and contextual thought leadership in the areas that matter most today, made accessible through an Online Learning Platform

Our difference is that we empower entrepreneurs by providing a clear, focused, and practical roadmap to better business performance, enabling them to cut through the noise and implement the best strategies for today's unique challenges.

THE BETTER BUSINESS SCHOOL METHODOLOGY

THE 'FIVE CRITICAL PILLARS' FOR BETTER BUSINESS

 COURAGEOUS LEADERSHIP	 PEOPLE	 STRATEGY	 CASH	 EXECUTION
True leadership starts with a commitment to sustainability. This pillar emphasises a business model that values environmental stewardship, ethical governance, and responsible resource use. Leaders guided by this principle understand their role as a positive force, shaping their companies to contribute to a healthier planet and a fairer society.	A thriving culture is at the heart of any successful organisation. This pillar centres on creating a workplace where people feel valued, empowered and united through shared values and a unified vision. Leaders who prioritise people foster inclusivity, inspire loyalty, and cultivate environments where employees can grow and innovate.	Clear and effective strategies guide businesses to win. This pillar focuses on defining a compelling vision, setting goals that inspire, and laying out a roadmap to success. Strategic leaders are visionaries who align their teams around long-term objectives, ensuring sustainable growth and resilience.	Financial health is essential for a business to thrive. This pillar is about mastering financial literacy, balancing cash flow, and raising the right type of funds to support growth. Business leaders skilled in financial management ensure the stability and resources necessary to drive innovation and expansion, providing a solid foundation for future success.	Turning vision into reality requires effective execution. This pillar highlights the importance of operational excellence, clear processes, and adaptive management. Leaders who excel in execution bridge the gap between planning and achievement, ensuring their strategies are implemented efficiently and goals are consistently met.

LEARNING OUTCOMES FOR TRANSFORMATIONAL CHANGE

Mindset Shift

That not only is it possible to build businesses that have positive social and environmental impact without detriment to profitability, but in fact, a strong social purpose can significantly propel business.

Maximise existing business potential via the implementation of Scaling Up techniques

Resulting in:

- i. a clear people plan, identifying gaps and repositioning opportunities
- ii. a tightened strategy on why people should do business with you and how to 10X your business
- iii. an aligned team for effective execution
- iv. a multipronged approach to improve cashflow in the company.

Live Better Lives

Better overall performance leads to higher satisfaction, personal fulfilment and ultimately, better lives.

Build a Better World

Participants, through continuous learning, support and sharing within the TBBS community will be inspired and empowered to build more equitable and impactful businesses, thereby resulting in a better world.

"What's really needed is a deeper shift in consciousness so that we begin to care and act, not just for ourselves and other stakeholders but in the interests of the entire ecosystem in which economic activities take place."

- Otto Sharmer, Author & Systems Innovator, 2013
